

# Beet Cardeal F1

**A premium quality red beet  
with excellent features  
for growers, processors and consumers.**

**SAKATA®**

### SAKATA Advantages

- **Cardeal F1** has a good storage ability and a very high sugar contents.
- **Cardeal F1** produces very healthy foliage with a strong canopy.
- Crown attachment is small to medium, but remains strong and healthy to aid top lifting if required.
- **Cardeal F1** has a fine tap root, a globe shape and a deep red internal colour.
- It has a medium cycle and is very vigourous and erect.
- **Cardeal** is partially tolerant to Cercospora leaf spot and Downy mildew.
- **Cardeal F1** is particularly suitable for baby beet production due to its uniform globe shape, minimal peel loss after cooking and excellent sweet taste.
- **Cardeal F1** has a wide range of usage: fresh and processing market (dry extract, slices, baby beet).
